Add a permanent
touch of color to
your garden . . .

Never before have we offered fine specimen grafted Blue Spruce at such low prices. A costly variety to grow, these ten-year-old plants have been properly developed, staked, root-pruned and are now ready to be planted for individual specimens.

We have many thousands of these fine hardy trees and a considerable number must be moved this spring to make room for other plants.

JAPANESE RED MAPLES

The brilliant red foliage of these colorful, semi-dwarf trees makes a welcome contrast in summer, and their sturdy branches are most attractive in winter. They may be used in shrub borders as pictured below or as specimens.

We have a particularly fine strain of Red Maple, grown in our propagating department from plants imported many years ago.

There are 8000 of these fine plants which we offer as follows:

2 to 3 ft.....	\$2 50
3 to 4 ft.....	4 00
